

Human Space Volt

Zoé

I don't wanna live underground,
I just wanna make it home tonight,
no one can see her and no one could find her,
she rides a paper plane.

The television is their drug,
they gave their eyes to the Reich,
no one can see her and no one could find her,
she was a junkie, an alpha monkey.

An electronic nebula,
somewhere in the quantum land.

Human space volt,
holy water,
need some microwaves
for redemption.

Human space volt,
holy water,
need some microwaves
for redemption.

No one can see her and no one could find her,
she was a junkie, an alpha monkey.

An electronic nebula,
somewhere in the quantum land.

Human space volt,
holy water,
need some microwaves
for redemption.

Human space volt,
holy water,
need some microwaves
for redemption.

Human space volt,
holy water,
need some microwaves
for redemption.

Human space volt,
holy water,
need some microwaves
for redemption.
