Zola Jesus

What remains of us?  
What remains of us?  
What remains of us?  
What remains of us, us, us?

Is this all there is  
Or am I blind to it?  
I tried to open up  
I'm, I'm nothing

What remains of us?  
What remains of us?  
What remains of us?  
What remains of us, us, us?

These ruins give out  
Do they give too?  
Something men were, something men were  
And were we, were we living?

What remains of us?  
What remains of us?  
What remains of us?  
What remains of us, us, us?
