

This Is It

Zonke

I wanna know who's loving you now
I wanna know who's hugging my baby
I wanna know who's loving you now
I wanna know who's hugging my baby

So, darling this it is
We must know if this is it
Yeah, yeah yeah
Darling this it is
We must know if this is it
Yeah, yeah yeah

I had it good and I know it
Must've forgotten that you were human too
You were so true I remember
Now I've been missing you since December too

I wanna know who's loving you now
I wanna know who's hugging my baby
I wanna know who's loving you now
I wanna know who's hugging my baby

Sometimes I sense your unhappiness
But maybe I'm fooling myself
I see your face on my mind
And I wonder if you're seeing mine

So, darling this is it (cause I'm missing you baby, cause I'm loving you baby)
Must know if this is it (cause I'm missing you baby, used to loving you baby)
Darling this is it (cause I'm missing you baby, cause I'm loving you baby)
Must know if this is it (cause I'm missing you baby, used to loving you baby)

How can I lose control, lose all focus
Asking everybody how you living now
Hope they ain't loving you better than I
Remember all the things we did everyday
I lose control, lose all focus
Asking everybody how you're doing now
Hope you ain't getting a love better than mine
How do I live?

Darling this is it (I wanna know who's loving you now)
We must know if this is it (I wanna know who's hugging my baby)
Darling this is it (I wanna know who's loving you now)
We must know if this is it (I wanna know who's hugging my baby)
