

## Silhouette

Zoot Woman

Bring the ceiling down closer  
Make it all so real  
Will we last much longer  
Where is the future we thought one day we would have

Now this room feels smaller  
Than it's ever been  
Can we keep it together  
Are we devoted, has our life become routine

Are we fixed upon one view  
Are we shadows in one room, fading too  
Does a light shine eternally  
Behind this silhouette of uncertainty

Feel the walls come in closer  
Now the light won't shine  
Can we make it brighter  
Bring back the hope that we had one more time

When the feeling's recaptured  
You know it will be  
Go to places we've never been  
We will always see the same way

Are we fixed upon one view  
Are we shadows in one room, fading too  
Does a light shine eternally  
Behind this silhouette of uncertainty
