

Witness

Zoot Woman

It's not truth you heard
Don't substitute my word
Have faith in me
All we can expect
If our luck goes astray
Still we could find a way
Have faith in you
With no feet on the ground you're not easily found
Not fooling around
I need a witness
Need to show you more
Need a witness, need to show
And all we suspect
Will appear so small
Inside our world is all
Have faith in us
And all we reject
All accusations made
However strong will fade
Have faith in me
With no feet on the ground you're not easily found
Not fooling around
I need a witness
Need to show you more
Need a witness, need to show
And the truth in your eyes shows something
That I've been waiting to find
I need a witness
Need to show you more
Need a witness, need to show
