

# Babylon

Zornik

There's no more time  
To breathe the air  
Devide the world we live in  
Are we forgiven

And all the  
Have been destroyed  
Well, that's the points I'm making  
Our future's faith

And what's said is said  
What's done is done  
Just like great kings and empires  
We have no mercy

There's no more time  
To join the lines  
Witch could pretect us from others  
We fight like soldiers  
And all we know  
Is that love is gone  
Well that's the price we're making  
God has forsaken

My Babylon (4x)

And No more time to surrender  
Time has fall it's forever  
All we do is remember  
How it was in the end  
(3x)
