

Escape

Zornik

You help me out
I want to try
I wave goodbye
Gotta get out
Gotta gotta gotta get out!

Oh you fixed me up
I want some more
I know the way down
Wanna get out
Wanna wanna wanna get out

And I know, I know, I know
Ooh I know and I know and I know

I losing grip and white turns black
The powerfuls magic
And then comes hell, hell hell hell hell hell
Ooh enough for me
I wanna know more
The white man scream
I wanna, wanna wanna wanna get out

Ooh I know and I know and I know
Ooh I know and I know and I know

And bring me my love
And that's why I have my pride
And bring me my love
And escape from what I become
