

## Rain On Me

Zox

Let the color all drain out  
Won't you draw the curtains down on me?  
Silence never spoke so loud  
It's what i need  
So let me be  
With my disease

Please don't let it rain on me  
Because i realize i can't rely on you for what i need  
Please don't let it rain on me  
Cause i ain't got no shelter from this storm

On market street cars all stand still  
This city is so beautiful tonight  
I'll drink you up to get my fill  
But i don't beleive  
It's come to these  
So naturally

Please don't let it rain on me  
Because i realize i can't rely on you for what i need  
Please don't let it rain on me  
Cause i ain't got no shelter from this storm

Into this mind and body i was born  
And i realize by know that i have lost control  
But i'll be okay  
I know i'll be okay
