

## Wishing For Your Mouth

Zox

I taste the kiss  
That's been on my lips all night  
Nervousness, white fingertips  
And salt up in the sky  
I forget the things we talk about  
I'm not listening  
I am wishing for your mouth  
I'm not listening  
I am wishing for your mouth

I don't believe  
That you can't hear my heart beat  
The sound is waking up the neighbors  
Shaking leaves off of the trees  
I am lost  
I hope I'm never found  
I go missing  
When I'm wishing for your mouth  
I go missing  
When I'm wishing for your mouth

What goes up must come down  
Honey you can't sing a song  
Until you let your breath out  
It's allowed  
This is only wishing anyhow

What goes up must come down  
Honey you can't sing a song  
Until you let your breath out  
It's allowed  
This is only wishing anyhow

Only wishing anyhow  
If I am lost  
I hope I'm never found  
I go missing  
When I'm wishing for your mouth  
I go missing  
When I'm wishing for your mouth
