

Spirit Together

Zucchero

I was never so close to heaven as I am right now
People coming together
That is all I care about
And the feeling get stronger
As the sun is going down
Yeah the spirit in out there
Somewhere in this crowd

Everyone that I love
Must be somewhere in this crowd
We gotta go
We gotta make it together
We gotta stand
We gotta spirit together

If you wanna get closer to heaven
Then gather 'round
Our voices together
Making a perfect sound
Everyone that I love
Must be somewhere in this crowd
We gotta go
We gotta make it together
We gotta stand
We gotta spirit together

We gotta life
We gotta right
We gotta make it with the spirit in sight
We gotta light
We gotta fight
We gotta make sure what we're doing is right
We gotta plan
We gotta stand
We gotta make sure that we do understand
We gotta fall
We gotta love
We gotta love

We gotta go
We gotta make it together
We gotta stand
We gotta spirit together
We gotta life
We gotta right
We gotta make it with the spirit in sight
We gotta love
We gotta fight
We gotta make sure what we're doing is right
We gotta plan
We gotta stand
We gotta make sure that we do understand
We gotta hope
We gotta love
We gotta love
