

Trigger

Zulu Winter

Only if I'm gonna be a trigger
Setting you up
Only if I'm gonna be a trigger
Setting you up!

You saw the metal in me
Shape like a gun
I can feel it intertwine between your finger and your tongue
Cause I will be the catalyst just can't keep with this
I will be the catalyst
Cause I'm just like a trigger

Only if I'm gonna be a trigger
Setting you up
Only if I'm gonna be a trigger
Setting you up!

Keep me just like you said you would
Always there for excitement
Never gonna last, there'll be any good
Only keep it in time

All we had is good times
Wrapping the death[?]
We need to feel unloved
To realise what is left
Cause I will be the catalyst
Just can't keep up with this
I will the catalyst
Cause I'm just like a trigger

Only if I'm gonna be a trigger
Setting you up
Only if I'm gonna be a trigger
Setting you up!

Only if I'm gonna be a trigger
Setting you up
Only if I'm gonna be a trigger
Setting you up

Only if I'm gonna be a trigger
Setting you up
Only if I'm gonna be a trigger
Setting you up!
