

# Higher

ZUSE

I ain't feelin' no way  
I just roll me a blunt  
And put the dub to my face  
Got a cup full of henny and it ain't goin' a-ways  
Got your girl in here with me but cuffin' her ain't the case

It don't matter to me  
I get high as can be  
Mix the wax with the tree  
It don't matter to me  
Mix the -zan with the lean  
Molly rock or ruby  
Pop a perk if you please  
It don't matter to me

Break down a rello  
Put a whole gram inside it  
Then you roll - fuck it  
Tony can you do a nigga a favor and get some backwoods from the store  
Spilling henny on yo hoe, put her on camera if you wanna show-  
Grab her body, ride her like a two-stroke  
Repetition - boy I did it before

Roll me a blunt time I smoke it alone  
Take me a shot of patron  
Pop a molly, tell'em I'm on a roll  
Hmh, yack, leave you below  
Flow to the places I know you won't go  
Hippie killer all my life I'm stoned  
Real nigga gettin' high on my own  
Fuck nigga get a life of your own

It don't matter to me  
I get high as can be  
Mix the wax with the tree  
It don't matter to me  
Mix the -zan with the lean  
Molly rock or ruby  
Pop a perk if you please  
It don't matter to me

Can I get higher than I am right now?  
Can I touch the sky where I am right now?  
Can I get higher than I am right now?  
I'm 'bout to touch the sky where I am right now

On the block waitin' for a author  
Said you wanna fuck me so I got in all raw  
Married to the money, meet me at the all clubs  
So I get the good rob [?]

I'm decided to getting higher like a fucking ninja  
If she don't call me the lord I ain't fucking with her  
Boy I'm trynna fuck yo' mom, call the babysitter  
I'm a keep it disrespectful... [?]  
When ya' say it with 'chu-

It don't matter to me  
I get high as can be  
Mix the wax with the tree  
It don't matter to me  
Mix the -zan with the lean  
Molly rock or ruby  
Pop a perk if you please  
It don't matter to me

Can I get higher than I am right now?  
Can I touch the sky where I am right now?  
Can I get higher than I am right now?  
I'm 'bout to touch the sky where I am right now
