1. Look, my eyes, they've got typical sparkle
before I have been always an unsettled man
Look, my hands, they've got a lot of bracelets
before I have been like a naked without them
2. For every minute I was looking for a comfort
I had no strategy to climb so easy up to ladder
That was the way that I'm found on higher platform
if I am hold out I will try to be kind and better!

- R: Forth with a fortune, without shame and silly protection
Forth with a fortune, it was amazing, it was exciting
Forth with a fortune, without fear or stifling correction
Forth with a fortune, you can guess what people are meaning!
3. Look, or listen, my voice has a different colour
before I didn't mean it would be my origin sound
Look, I'm simple, I was waiting for my hour
before I didn't mean that I'd be patient and that day I find
 4. My name is my name and the way that I'm sit is mine
so let me sit, that I want be sitting in this time
in time when everything was fine and anything was wrong
that was the age when I was trying to write my first song!
