

## Cinnamon Stix

ZZ Ward

(Hard to see it and most don't really feel it anyway  
Hard to see it and most don't really feel it anyway)

I got my ghost of the reins in my knee high boots  
Got my Stetson fedora hidin baby blues  
Bout to light up the dark, got a fire that's huge  
Got it all and I'm bout to put it all on you

Knock that sun down from this amber sky  
Shake the stars loose I'm gonna change your mind

(Hard to see it and most don't really feel it anyway)  
I got good love you're gonna feel it  
(Hard to see it and most don't really feel it anyway)  
I got good love you're gonna feel it  
(Hard to see it and most don't really feel it anyway)  
I got good love you're gonna feel it  
(Hard to see it that most don't really feel it anyway)  
I got good love you're gonna feel it

Started out hot but it got us cool  
She had you on your knees like a no good fool  
She tries to be your momma but it just won't do  
Cause you can't do your momma, No you can't can you

She can't change that weather, can't freeze time  
Shake the stars loose I'm gonna change your mind

(Hard to see it and most don't really feel it anyway)  
I got good love you're gonna feel it  
(Hard to see it and most don't really feel it anyway)  
I got good love you're gonna feel it  
(Hard to see it and most don't really feel it anyway)  
I got good love you're gonna feel it  
(Hard to see it and most don't really feel it anyway)  
I got good love you're gonna feel it
