

Forget About Us

ZZ Ward

Sundown
Dice up on dash
I'm driving
Hair down
Blowing in the wind
I'm smiling
Bye bye
Waving in the rear-view mirror
Watch out
I'm seeing the world much clearer

Slept in my sheets
Bought me a gold ring
Lie and you cheat
Where was it going
You loved another
But you kept it in the shade
And now I see I got played

Forgot about the ring on your finger
Forgot about something called trust
You said, "Can't we just forget that I messed up?"
I said, "No, but let's forget about
Let's forget about us
Let's forget about us."

Black skies
Headlights on an open highway
Bass up
Mama don't care if you're OK
Zig Zag
Ashes in the air
I'm on one
Slow drag
Damn it feels so good to be done

You loved the rush
You loved attention
Consider it fate
And swallow ya
Selfish intentions

Forgot about the ring on your finger
Forgot about something called trust
You said, "Can't we just forget that I messed up?"
I said, "No, but let's forget about
Let's forget about us
Let's forget about us."

One day I found
Two eyes to see
Three bodies and
Four walls to leave
Five fingers on
The steering wheel
Six miles 'til something real

Forgot about the ring on your finger
Forgot about something called trust
You said, "Can't we just forget that I messed up?"
I said, "No, but let's forget about
Let's forget about us
Let's forget about us
Let's forget about us
Let's forget about us
Let's forget about us."
Let's forget about us."
