Don't tell me no  
Just tell me yes  
I see your red heart beating out your chest  
Let's walk on fire  
I'll take you high  
I'll make your head feel better than the best

Yellow, paint it gold  
I wanna rock you, 'til you roll  
Hello, do what you're told  
I wanna rock you, 'til you roll

Shut your mouth and close your eyes  
Put your fingers to the sky  
Just sit back and turn it up  
Take it, 'til ya had too much  
Feel the rush, getting close  
Let me be your overdose

Let me be your overdose  
Let me be your overdose  
Let me be your overdose

Now we gonna fly above the clouds  
Let the rain fall, we ain't coming down  
Call me cocaine or Mary Jane  
I'll last forever, up inside your brain

Yellow, paint it gold  
I wanna rock you, 'til you roll  
Hello, do what you're told  
I wanna rock you, 'til you roll

Shut your mouth and close your eyes  
Put your fingers to the sky  
Just sit back and turn it up  
Take it, 'til ya had too much  
Feel the rush, getting close  
Let me be your overdose

Let me be your overdose  
Let me be your overdose  
Let me be your overdose  
Let me be your overdose

Shut your mouth, and close your eyes  
Put your fingers to the sky  
Just sit back and turn it up  
Take it, 'til ya had too much  
Feel the rush, getting close  
Let me be your overdose

Let me be your overdose  
Let me be your overdose  
Let me be your overdose  
Let me be your overdose
